

REMARKS

The present Continuation application is in response to the Office Action mailed August 26, 2003 for the parent application. The currently presented claims are like those submitted as claims 10-22 in Applicants' last response for the parent application, and are fully supported by the original disclosure. Applicants point to their previous remarks that support patentability of the new claims over the prior art, including U.S. Patent 6,022,674 (McGHuckin et al.).

Examination of the present application is hereby requested.

Respectfully submitted,
